**Subject: Board Order R7-2004-0100 November 2005 Notification Letter  
Interim Measure No. 3 Groundwater Treatment System at the PG&E Topock  
Compressor Station, Needles, California**

Dear Mr. Perdue:

Board Order R7-2004-0100 was issued to Pacific Gas and Electric Company (PG&E) by the Colorado River Basin Regional Water Quality Control Board (CRBRWQCB) for Topock Compressor Station, Interim Measure (IM) No. 3 Groundwater Treatment System discharge to the Colorado River on October 13, 2004.

This letter provides notification to the CRBRWQCB that no activities were conducted under Board Order R7-2004-0100 during the month of November 2005. To date, there has been no IM No. 3 Treatment System discharge to the Colorado River.

PG&E is using Board Order R7-2004-0103 to discharge IM No. 3 Treatment System effluent to subsurface injection wells. Previous notifications that no system discharge under Order R7-2004-0100 were included in the cover letter for monthly reports submitted under Order R7-2004-0103.

If you have any questions regarding this notification letter, please call me at (760) 326-5582.

Sincerely,

Curt Russell  
Topock Onsite Project Manager
