

PUBLIC NOTICE

First Five-Year Review on Groundwater Remedy PG&E Topock Compressor Station Remediation Project San Bernardino County, California

The U.S. Department of the Interior (DOI), in cooperation with the California Department of Toxic Substances Control (DTSC), is beginning a Five-Year Review process under the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA) that will review the groundwater remedy implemented at the Topock Compressor Station in San Bernardino County, California. The selected remedy for groundwater includes the use of in-situ treatment with fresh water flushing for groundwater contamination associated with Solid Waste Management Unit (SWMU) 1/Area of Concern (AOC) 1 and AOC 10.

The purpose of the Five-Year Review is to ensure that the implemented remedy functions as intended and is protective of human health and the environment. Five-Year Reviews will continue for the life of the site until hazardous substances, pollutants, or contaminants no longer remain on site at levels that do not allow for unlimited use and unrestricted exposure.

Public participation is encouraged and welcomed. If you are interested in participating in the interview process, **please notify the contact personnel listed below by May 31, 2023**. The Five-Year Review Report is scheduled for completion in December 2023 and will focus on the following sites where groundwater remedial actions have been implemented:

<i>Site Identification and Name:</i>	<i>Managed by:</i>
SWMU 1/AOC 1 and AOC 10	DOI

FOR MORE INFORMATION

If you have any questions, or wish to participate in the interview process, please contact the following:
