Subject: PG&E: Comment Period Extension for Draft Soil Investigation Environmental Impact Report

Greetings,

DTSC has received and considered an extension request for the review and comment of the Draft Soil Investigation EIR submitted by the Hualapai Indian Tribe on July 25, 2014 and support from the Fort Mojave Indian Tribe on July 30, 2014, as well as the Cocopah Indian Tribe on August 4, 2014. After consideration of the basis of the request, DTSC is willing to approve an extension of an additional 15 days. The extension is in conformance with the regulatory time frame specified in Title 14, California Code of Regulations, Chapter 3 (CEQA guidelines), Section 15105(a) that the "public review period for a draft EIR shall not be less than 30 days nor should it be longer than 60 days except under unusual circumstances." With this determination, DTSC requests that all comments on the draft EIR be submitted by no later than September 5, 2014. Please note that DTSC will conduct a separate notice to the public announcing this extension period. If you have any questions regarding this matter, please feel free to contact me at (714) 484-5439.

Aaron Yue
