Palm Desert, California 92260

**Subject: Board Order R7-2007-0015
PG&E Topock Compressor Station, Needles, California
Upland In-Situ Pilot Test
October 2007 Monitoring Letter**

Dear Mr. Perdue:

This letter is being submitted in compliance with the Waste Discharge Requirements (WDRs) issued by the Colorado River Basin Regional Water Quality Control Board (Water Board) under Board Order R7-2007-00015 for the Pacific Gas and Electric Company (PG&E) Topock Compressor Station, Upland In Situ Pilot Test.

Well installation activities began on April 23, 2007 and were completed on July 18, 2007. System construction activities began on August 6, 2007 and have yet to be completed. No injection of material occurred in the upland in situ pilot test area during the October 2007 reporting period.

I declare under the penalty of law that I have personally examined and am familiar with the information submitted in this document, and that based on my inquiry of those individuals immediately responsible for obtaining the information, I believe that the information is true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of a fine and imprisonment for knowing violations.

If you have any questions regarding this report, please call me at (805) 234-2257.

Sincerely,

Yvonne Meeks
Topock Project Manager
