Lake Havasu City, AZ 86406

Subject: Ethnographic Study

Dear Ms. Liebhauser:

We understand that the Lake Havasu Field Office is planning to undertake an ethnographic study in the context of the Topock Remediation Project. Per the July 11, 2012 Cultural and Historic Properties Management Plan ("CHPMP") meeting, we further understand that the Bureau of Land Management ("BLM") will be drafting a Scope of Work ("SOW") for the ethnographic study and will be consulting the Tribes on the SOW. As the entity responsible for conducting all facets of the clean-up, PG&E requests that BLM also involve PG&E in this process, including discussing the SOW for the ethnographic study and the selection of a contractor to conduct the ethnographic study with PG&E. We also understand that the federal government may seek some form of cost recovery from PG&E for this effort. For these reasons, PG&E should be a participant in the ethnographic study process, along with BLM and the Tribes.

Additionally, PG&E is aware that BLM's Kingman Field Office is also conducting an ethnographic study. Our preliminary understanding is that that study also encompasses at least some of the Area of Potential Effect for the Topock Remediation Project. If this is correct, PG&E also requests to be involved in that study, for the same reasons set forth above. We request that BLM share with PG&E what the scope of the Kingman Field Office's ethnographic study is, or direct PG&E to the right person at the Kingman Field Office who may be able to provide that information. Additionally, if a scope of work for the Kingman ethnographic study has been issued, PG&E requests a copy.

If you have any questions, or would like to discuss PG&E's requests, please contact me at (805) 234-2257.

Sincerely,

A handwritten signature in blue ink that reads 'Yvonne Meeks'.

Yvonne Meeks  
Topock Project Manager
