Subject: PG&E: Concurrence with Risk Assessment Work Plan

Dear Ms. Meeks,

DTSC is in receipt of the final revision of the Risk Assessment Work Plan (RAWP) Addendum dated February 4, 2009. The Addendum was forwarded to DTSC by Ms. Kimberly Walsh of ARCADIS U.S., Inc. on behalf of PG&E. DTSC understands that the Revised RAWP dated August 25, 2008 together with the February 4 RAWP Addendum is now considered the final Risk Assessment Work Plan that details the approach and scope of work for the up coming groundwater and soil risk assessment evaluations. As a result of reviewing the integrated response to comments included in the final revision of the RAWP Addendum, DTSC is in agreement that all comments are now addressed with no outstanding issues. DTSC, therefore, concurs and approves the final RAWP.

Please ensure that the final RAWP is uploaded to the DTSC-Topock website and are available for interested stakeholders. If you have any questions regarding this email or the approval, please feel free to contact me. Thank you.

Sincerely,

Aaron Yue
