

Groundwater Remedy Construction, Start-up, and Initial O&M Schedule

PG&E Topock Compressor Station | Needles, California
June 2026

LEGEND

* Subsequent to the start of O&M, data will be collected to facilitate remedy performance assessment for purposes of DOI's determination of Operational and Functional (OF), DTSC's determination of Operating Properly and Successfully (OPS), and DTSC/DOI evaluation of criteria for IM-3 Decommissioning. See Section 7.4 of 2015 Basis of Design Report for details.

** Per the 2015 Basis of Design Report, the **TCS Recirculation Loop** consists of injection wells in TCS, extraction wells on the Transwestern Bench, and extraction wells in the East Ravine area. The **Inner Recirculation Loop** consists of IRL wells in the uplands and River Bank wells along the riverbank.
