Subject: Photos of the Topock Compressor Station and vicinity

Dear Ms. Wolff-White and Mr. Yue:

In accordance with your request, attached is a DVD containing primarily historic photos of the Pacific Gas and Electric Company (PG&E) Topock Compressor Station (TCS), located in Needles, California.

The photos come from two primary sources: photo albums at TCS and the draft Route 66 National Register of Historic Places nomination report. The bulk of the photos come from the large photo album which documented the construction of TCS.

Because of the volume of photos and to expedite providing this information to you, the photos are being transmitted via the attached DVD. Each page of the photo albums were scanned as a single image. The construction photo album was scanned at a commercial copy house as high resolution .tif files.

Please contact me if you have any questions regarding the attached information.

Sincerely,

A. Glenn Caruso
Senior Cultural Resources Specialist
